Dear Colleagues,

It is great to invite you to attend and participate in the 10th International Scientific Conference of Faculty of Physical Therapy, Cairo University on the theme of:

"Physical Therapy & Future Challenges"
1-2 March, 2007

This conference takes place in Pyramisa Hotel, Giza, Egypt for two days and the opening ceremony will be at the Great Celebration Hall, Cairo University, on Thursday, 1st of March, 2007.

This conference is an occasion to exchange points of view and opinions with international experts in the field of physical therapy. In addition, different companies are providing a vast exhibit for their new products & latest technical equipments.

This conference is held under the patronage of his excellence president of Cairo University.

---

A. Global Health:

Congress provides an excellent opportunity to reflect on international health care policy and its implications for physical therapy and the population.

- Chronic Diseases (Arthritis - Cancer - Cardiovascular disease – Diabetes - Smoking related illnesses).
- Public Health & Health Care promotion.
- Environmental Contamination & Health

B. Professional Issues:

The profession of physical therapy is evolving all the time, learning from the past and looking to the future. The status and profile of physical therapy varies internationally as does the context within which physical therapists work.

- Business management / administration
- Ethics
- Scope and Standards of Clinical Practice
C. Professional Practice
This track will focus on the practice of physical therapy from referral through assessment, diagnosis, planning, intervention and evaluation.

- Cardiovascular / Pulmonary
- Care of Older People
- Complementary therapies
- Assessment and Evaluation
- Electrophysical and isothermal modalities
- Measurement in practice
- Musculoskeletal and its disease
- Neuromuscular and its disease
- Physical therapy and Occupational Disease
- Paediatrics and Individuals with Special Needs
- Pain management
- Immunity Diseases and Genetics
- Gender health (Women and Man)
- Equipment / orthotics / prosthetics
- Physical Therapist - Patient / Client Interaction

D. Education
Physical therapy education is a continuum of life long learning beginning with admission to an accredited physical therapy school and ending with retirement from active practice.

- Evidence -Based Clinical Education
- Methods of teaching and learning

E. Research and Development
The generation of evidence through research is essential to the development of evidence based practice.

- Scientific research and technology
- Research features (Characteristics) of Medical Sections
- Research and production sections.
- Clinical Guidelines
- Evidence based practice.

**Conference Fees**

- $250 for the attendance of all activities (include social activities, meals, transport, closing ceremony).
- No more fees for presenting first scientific paper which its abstract will be published in conference’ book of abstracts.
- $100 is added in case of Publishing the whole research in conference Bulletin which will be printed after the conference. The first author will have 16 edition of his research and 2 editions of the bulletin. (Extra fees are because of research assessment and printing).
Special rules for presenting research:

- Submitting research in a hard copy and a copy on a CD or a disk. deadline: March 31st, 2007.

Accommodation (per night include breakfast & taxes):
